What are Alphabets?

Alphabets are like little building blocks. We use them to make words! Just like Lego pieces make a tower, alphabets make sentences

Example: The word 'apple' has 5 letters: A, P, P, L, E. When these letters come together, they make the word apple

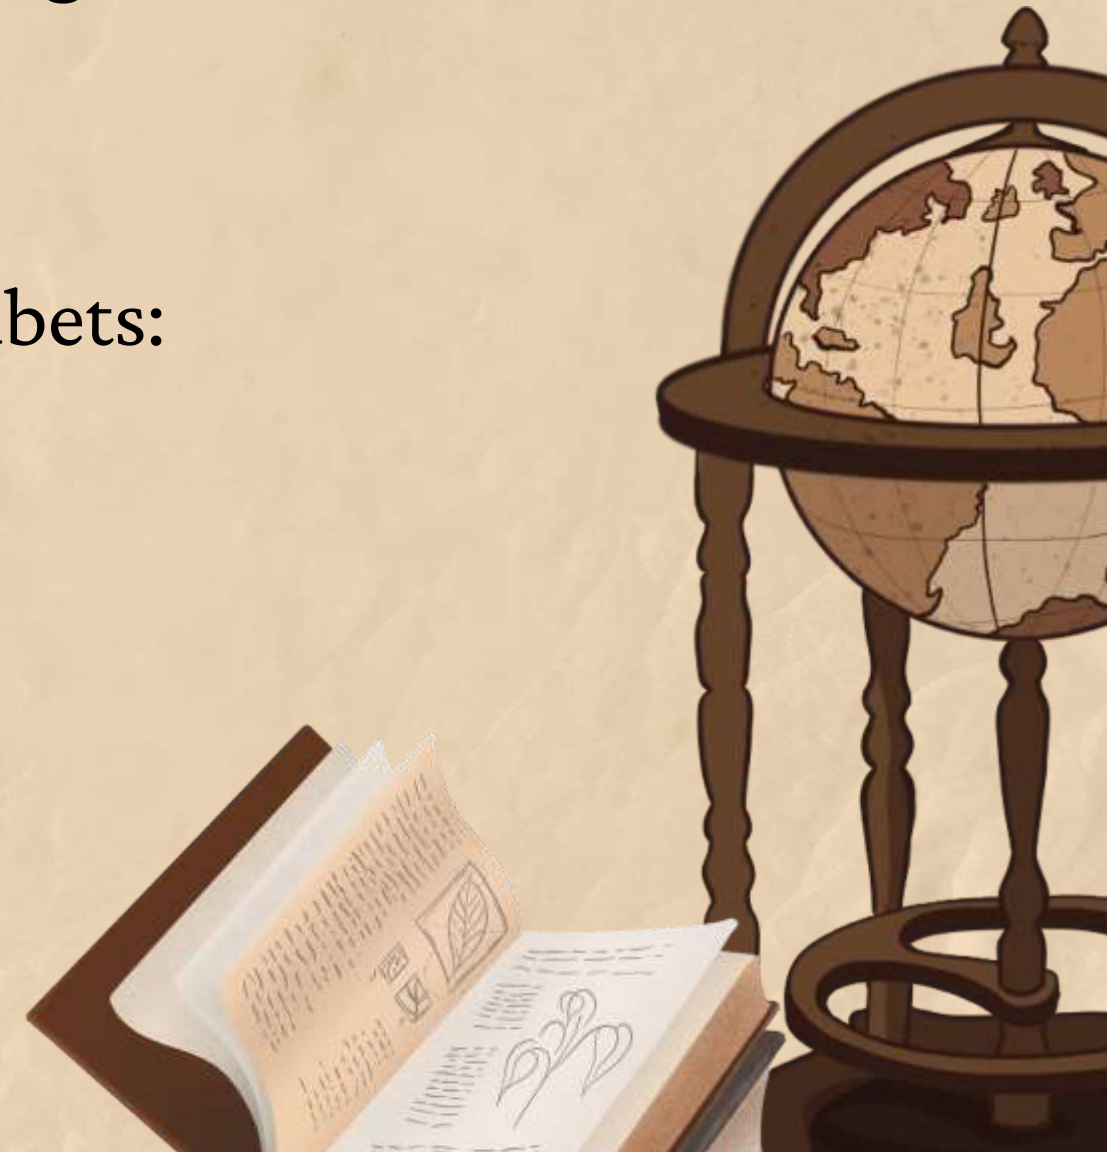

What Are Arabic Alphabets?

Arabic is another language like English. It's special language because the Holy Quran was revealed in it. Like English, Arabic has its own letters.

Example: The word 'Quran' in Arabic uses Arabic alphabets:

(Kaf) **ق**, (Ra) **ر**, (Alif) **ا**, (Noon) **ن**

What Is the Sound of Alphabets?

Alphabets have sounds we say with our mouth. Arabic alphabets are special because we know them by their sounds

Example: Like Arabic letter ا sounds like **A** and Arabic letter ب sounds like **B**
